Prone-Board Prices Effective Oct 15, 2019*

All “Basic” prices are for 2.1 PCF EPS foam core/Epoxy resin shell, clear, sanded gloss-coat finish, with E-Cloth glass; double layer cloth on bottom and double layer cloth on deck, and twin-fin box. Multi-fin box systems available include Future and FCS Fusion or FCS II. All boards are shaped from “1st Quality” Marko Foam (EPS) blanks. All boards are built in Ventura County, California.

Prone Boards - Basic Prices

T-Belly G5/G6	44” or smaller	\$385.00	45” – 54”	\$450.00
Custom	48” or smaller	\$470.00	49” – 58”	\$490.00

Options (add to “Basic” price unless otherwise noted)

Fin System		Glassing

Composite Quad Fins Set (FCS/Futures)	\$ 52	Extra layer/patch fiberglass cloth per layer	\$12.00
Premium Quad Fins Set (FCS/Futures)	\$ 75		
Color			
Air spray per side, one color	\$ 25	Resin color change per color, per side	\$ 10
Resin Tint per side, one color	\$ 25	Hot Coat Pinline per line	\$ 25
Abstract Resin Tint per side	\$ 35	Custom color design	Quote

* Prices subject to change without prior notice. **If the board is picked up in California, the customer must pay CA sales tax 7.25% regardless of where you reside, no exceptions, so please don’t ask.**

A Note On Color Orders - I can’t guarantee that the glasser will be able to reproduce the exact shade of color you have in mind when you order your board. Tints and sprays are unique, since they are mixed by hand, one board at a time. And, while color swatches or Pantone codes will help, there is simply no way to guarantee a specific color shade. The same holds true for “abstract” designs such as swirls, sunbursts, tiger stripes etc. **DO NOT EXPECT EXACT REPLICATION OF COLOR OR DESIGN.**
